

LI-2B Light Industrial Swing Gate Operator

At the press of a button, the Australian made Arco operator gives you the security and convenience you deserve for your home and family.

- * Commercial/Domestic applications
- * High security
- 24V DC motor
- Heavy Duty gearboxes
- * Input for loop detectors, photo electric cells and most types of access controls
- * Over 1,000 cycles easily obtained per day
- * ARCO installation manual included

The system will operate from mains, low voltage or solar

- **Laser cut steel components** ensure precision and reliability.

- **Rigid drive chassis** eliminates twisting and breakage.

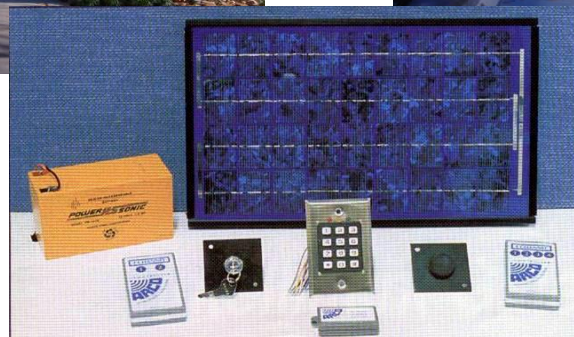

- **Steel arms and arm brackets** are designed to resist damage from abuse

- **Corrosion protection** is utilised by using zinc plating on critical components

- **Bearing surfaces** are fitted to all shafts giving smooth operation and extended service life.

- **High torque electro-mechanical drive system** utilising two robust heavy duty gear boxes.

- **Versatile design** allows for the operators to be used for inward or outward swinging gates up to 130 degrees

*** Wide selection of controls options**
